We carry on and wait for hope to find its way

Let the storm make its way Let the oceans ride their waves  
**F#** **E**  
We know how to breathe when it pours  
**B** **C#min** **B**  
On an island filled with blues Stranded looking for a clue  
**(B)** **C#min**  
It all seems to fall in place  
**F#** **E**  
If we make it past this blaze We won't have to fear the pain

In our hands we hold what's true The strength that no one ever knew
